UNION JURISDICTION

To simplify show preparation, we are certain you will appreciate knowing in advance that Union Labor will be required for certain aspects of your exhibit handling. To help you understand the show site work rules, we ask that you read the following.

EXHIBIT LABOR

Local Union has jurisdiction through a labor agreement with all contractors for the installation, touch-up painting, dismantling and repair of all exhibits. This work is to include wall coverings, floor coverings, pipe and drape, painting, hanging signs and decorative material from the ceiling, and the erection of platforms used for exhibit purposes. To secure labor, please utilize the labor form enclosed.

If full-time company personnel are utilized to set their exhibits, they must carry positive company identification such as medical identification card or payroll stub. This rule prohibits the utilization of workers hired from a non-union agency or company.

DEFINITION OF EXHIBITS THAT FULL-TIME COMPANY PERSONNEL MAY SET: 10 X 10, 10 X 20, KNOWN AS MOM & POP POP-UPS (NO GEM WALLS OR HARD WALL EXHIBITS MAY BE SET BY EXHIBITOR).

Local Union jurisdiction does not cover the placement of your products on display, the opening of cartons containing your products, nor the performance, testing, maintenance, or repairs of your machinery or products.

FREIGHT HANDLING

Local Union has jurisdiction through a labor agreement with the General Contractor for the loading and unloading of all trucks, trailers, and common and contact carriers as well as the handling of empty crates and the operation of material handling equipment and any mechanical devices such as forklifts, pallet jacks, hijackers, etc. The Local Union also has the jurisdiction of the unloading, uncrating, un-skidding, leveling, painted, and assembly of machinery and equipment and the reverse process.

The General Contractor has the responsibility of receiving and handling all the exhibit materials and empty crates. It is their responsibility to manage docks and schedule vehicles for the smooth and efficient move-in/move-out of the trade show.

An exhibitor may "hand carry" merchandise and "pop ups" only, provided they do not use material handling equipment to assist them, such as push carts, two or four wheel dollies or anything with wheels. When an Exhibitor chooses to "hand carry" materials they must utilize the "hand carry doors". They are not permitted to access to the loading dock/freight door areas. Please see the Hand Carry Policy contained in this kit for details.

Exhibitors may deliver materials to the loading dock/freight doors in their own personnel vehicle with the following restrictions:

1. The General Contractor has complete control of the loading dock at all times;
2. Exhibitors may not leave vehicles unattended at the loading areas. Any unattended vehicle may be towed.
3. All materials must be handled by the freight department and subject to the published material handling prices.

GRATUITIES

The General Contractor and I&D companies signatory to the contractor with Teamsters Local Union requires that exhibitors do not tip its employees by giving money, merchandise, or other special consideration for services rendered. Any attempts to solicit or take gratuity by an employee for any service, should be reported immediately to a supervisor of the contractor. Contracted employees are paid an excellent wage, and tipping is not an accepted policy.

All craftsmen dealing with exhibitors will do so in a courteous and professional manner. All questions arising with regard to the Union's jurisdiction or practices must be directed to the General Contractor and the Union.

Bill of lading covering outgoing shipments, which are furnished by *Vista Convention Services* to exhibitor, will be checked at time of actual pick up from booth and corrections made where discrepancies occur.

Vista Convention Services shall not be responsible for any loss, damage, or delay due to fire, Acts of God, strikes, lock-outs or work stoppages of any kind or to any causes beyond its control.

Vista Convention Services' liability shall be limited to the physical loss or damage to the specific article which is lost or damaged, and in any event, *Vista Convention Services'* maximum liability shall be limited to \$.30 per pound per article with a maximum liability of \$50.00 per item, or \$1,000.00 per shipment; whichever is less.

Exhibitors are urged to carry all-risk floater insurance covering their materials against damage, loss, and all other hazards from the time shipment is made prior to the show until shipments are received back after the show. This can generally be done by adding "riders" to existing insurance policies, often at no additional cost.

Empty container labels will be available at the Service Desk. Affixing the labels is the sole responsibility of the exhibitor or his representative. *Vista* assumes no responsibility for removal of containers with old Empty labels, mislabeled, or valuables stored inside containers while containers are in storage.

Outbound shipping labels and bills of lading will be available at the Service Desk. Exhibitor or his/her representative must pack and label their exhibit material and turn in bill of lading for each shipment at the Service Desk before leaving the show. *Vista* will route all shipments unless a designated carrier has been assigned. If the designated carrier fails to pick up by the removal date of the show, *Vista* reserves the right to route exhibit material by an alternate carrier. As a result of re-routing or handling no liability will be assumed by *Vista*.

IMPORTANT FREIGHT INFORMATION

DEFINITION OF SPECIAL HANDLING:

“Shipments that are loaded in such a manner as to require additional labor to unload, sort, and deliver”.

Vista Convention Services uses the following definitions in assessing Special Handling surcharges for material handling:

- ⇒ **Ground load/unload**-vehicles that are not dock height preventing the use of loading docks, such as U-Hauls, flat bed trailers, double drops, etc. Situations where dock utilization is not possible will result in a Special Handling assessment.
- ⇒ **Side door load/unload**-shipments that cannot be accessed from the rear of the trailer.
- ⇒ **Constricted space load/unload**-trailers loaded "high and tight", shipments that are loaded in such a manner as to not be readily available (freight down one side of a trailer that must be bypassed to reach targeted freight).
- ⇒ **Designated piece load**-driver with tape measure who requires loading crew to bring multiple pieces of freight to rear of trailer to select next piece; having to unload and reload to fit, etc.
- ⇒ **Stacked shipments**-shipments loaded in such a manner as to require items to be removed to ground level for delivery to booth. Loose items stacked on top of crates and/or pallets constitute Special Handling.
- ⇒ **Mixed shipments**-multiple shipments delivered together without shipment integrity; pieces for separate shipments that are loaded mixed throughout the delivery vehicle, such as UPS, FedEx, USPS.
- ⇒ **Improper delivery receipts**-shipments that arrive without individual bills of lading, such as UPS, FedEx, USPS.

SHIPPING 101

Exhibiting at a tradeshow can be costly. When a company purchases a booth space, it is just the beginning of the expenses that typically include shipping freight, furniture rental, and material handling. The seasoned exhibitor can tell you that material handling, often referred to as "drayage", is sometimes the most costly item on the list. In many cases, the exhibitor is paying for surcharges he does not understand. By understanding what drayage is and how service contractors establish their rates, you will be able to save money by avoiding unnecessary charges. Outlined below are some of the most commonly asked questions about drayage.

WHAT IS DRAYAGE?

Simply stated, drayage is the moving of materials from point A to point B. Whether your materials are sent in advance to the service contractor's warehouse or directly to show site, they still need to get to your booth after the carrier drops them off. Paying for drayage entitles you to have your freight taken to your booth from the loading dock, empty containers stored during the show, empty containers returned to your booth at the close of the show, and your freight carried back to the loading dock and loaded onto the carrier at the conclusion of the show. Then you arrange for a carrier to pick up your exhibit materials for transport to the next destination. There is usually a 200 pound minimum per shipment charge for drayage.

CAN MATERIALS BE HAND CARRIED TO MY BOOTH?

In most major cities, union labor has exclusive rights to the loading dock. The total weight and size of the display plus the union regulations regarding drayage for that city will determine if items can be hand carried to avoid paying for drayage. However, if you think you can hand carry your display onto the show floor, it has to be brought in through the front entrance. To avoid any surprises or confusion, please check the union regulations in this Exhibitor Service Manual. If you hand carry your items, the empty containers may be stored during the show for a fee.

HOW ARE DRAYAGE RATES DETERMINED?

Since union labor is used to move freight, Vista Convention Services must set the rate based on the labor rate in that city. Drayage rates also reflect the cost of empty storage space and the overall cost to produce the tradeshow. Drayage rates will vary depending on move-in and move-out times.

HOW CAN I SAVE MY COMPANY MONEY?

Read your Exhibitor Service Manual and pay close attention to the shipping instructions. Be aware of any surcharges that may be imposed for special handling or late shipments. Please pay close attention to deadline dates. If warehouse shipments arrive too early or miss the deadline date, that means an additional surcharge. Vista Convention Services usually allows shipments to arrive at the advance warehouse up to 30 days from the first move-in date.

SHIP IN QUANTITY. Because service contractors usually enforce a 200 pound minimum per shipment, it is best to send your freight as one big shipment. We realize this is not always possible, but if you send 40 and 50 pound packages separately, you will be charged the minimum weight on each shipment. This expense can add up, but can be avoided with a little planning and organization. If possible, make sure your product is crated. Crated shipments are the easiest to unload, therefore, they incur the least drayage charge. Loose, pad wrapped and/or uncrated freight takes longer to unload and will be charged at higher rates. It may be worth the time and money to have crates built for your display. In addition, crates will help protect your materials during shipment.

SHOULD I SHIP TO THE ADVANCE WAREHOUSE OR SHOW SITE?

When possible, ship in advance to the warehouse. Even though the drayage charges are typically 25% higher, there are benefits. You can confirm receipt of your shipment with Vista Convention Services before the show, adding to your peace of mind. In addition, freight sent to the warehouse is unloaded prior to exhibitor move-in. Therefore, your freight will be in your booth upon your arrival. You can begin setting up your exhibit as soon as you arrive, which can save you time and labor during set-up. It is worth the added expense in order to reduce problems at show site.

SHIPPING INFORMATION

WHAT YOU SHOULD KNOW:

- *As an exhibitor, you are responsible for providing your carrier with proper delivery and pickup information for your materials, both in advance and at show site.
- *Please prepay all shipping charges. Vista Convention Services cannot accept or be responsible for collect shipments. All shipments must be accompanied by a bill of lading. Shipments received without receipts, freight bills or specified unit counts (UPS, Federal Express, personal vehicles, etc.) will be delivered to the exhibitor's booth without guarantee of piece count or condition. No liability will be assumed by Vista for such shipments. Shipments without certified weight documents will be estimated by Vista. This estimate will be binding on both parties and no adjustments will be made after the show closes.
- *Do not ship uncrated materials to the warehouse! Loose, uncrated or unskidded materials will be accepted at show site only. Uncrated shipments received at show site are charged at higher handling rates than crated, skidded or otherwise self-contained shipments.***
- *Separate mixed van shipments between crated and uncrated, and clearly identify the weights of each on the bill of lading. Otherwise, Vista Convention Services will invoice the entire load at the uncrated rate and will be unable to adjust charges later.
- *Select your carrier carefully. Shipments received on vehicles that cannot be unloaded at the dock are considered "special handling" and are charged at higher rates.
- *All shipments for the show received either in advance or at show site will be charged material handling by Vista Convention Services. Refer to the ***MATERIAL HANDLING SERVICE AND RATES*** form in this manual.
- *All material handling rates are roundtrip and are based on incoming weights only. Overtime charges may apply under some circumstances. Please refer to the ***MATERIAL HANDLING SERVICE AND RATES*** form in this manual.
- *If granted permission for early move-in (off-target move-in) by show management and Vista, the exhibitor is required to use Vista Convention Services' labor for booth installation.

MATERIAL HANDLING INCLUDES:

- *Storing your booth in our warehouse for up to 30 days in advance of the show. (*Advance shipments only*)
- *Delivering materials to your booth at show site.
- *Removing empty containers from your booth, storing them for the duration of the show, then returning them to your booth at close of show.
- *Moving packed and labeled materials from your booth to the dock area at close of show and reloading them on designated vehicles based on information provided on your show site bill of lading.

MATERIAL HANDLING DOES NOT INCLUDE:

- *Labor and/or equipment for uncrating, un-skidding, assembling, positioning, leveling, dismantling, re-crating and re-skidding machinery and/or equipment for exhibitors. Additional labor to accomplish these tasks may be ordered from the various labor order forms enclosed.
- *Scheduling any carrier for pick up or delivery of your materials, if other than the official show carrier(s).

Calculating Power

When calculating the amount of power needed for your exhibit, you'll first want to think about booth layout/design and all of the equipment that requires power. Electric to run equipment is usually measured in amps. If you need assistance determining the amount of power a piece of equipment requires, read the ratings from the metal plates or stamps usually located on the bottom or back of equipment. Note that any piece of equipment that plugs into a standard wall outlet found in your home or office will require 120-volt/basic power. This includes most office equipment, lights and home devices.

The formula for calculating power is: Amps (A) X Volts (V) = Watts (W)

600 watts = 5 amps
1200 watts = 10 amps
1800 watts = 15 amps
2400 watts = 20 amps

Calculating Lighting

Power for lighting fixtures is generally measured in watts. You can determine the amount of electric your exhibit lighting requires by adding the wattage of each bulb. Wattage information can typically be found on the packaging or the bulb itself. Wattage is the number printed on the top of the bulb or possibly on the metal base of the bulb.

Power Usage Guide	Watts
Booth Lights, per	200
Booth Lights, per - LED Lights	50
Computer - (Monitor plus CPU)	200-900
Computer - Laptop	100-300
Computer Monitor	120-200
Computer Printer - Inkjet	100
Computer Printer - Laser	400-1000
Flat Screen TV - 32"-50" Monitor	1000
Plasma Screen, up to 50"	375-500
Heat Lamps - per lamp	250

Connection Points

Consider the electrical load and how many items will be plugged in per outlet. Please note power strips offer six outlets but are only rated for 15 amps.

When placing your order and designing your electrical layout, think about general areas of your exhibit where power could be united from a single outlet or strip.

The General Contractor is responsible for the distribution of power to outlet locations within the booth; concealed cords under or over carpeting; cords overhead to equipment or lighting operation of man-lifts; scissor lifts; forklifts; and other locations where power is needed.

The Broadmoor does not supply labor for connecting electrical cords inside booth area.
